

When treatment is hard to afford

Raise costs early so the team can discuss workable options.

Access, communication and support

Questions for an individual conversation with your care team.

Raise costs early so the team can discuss workable options. These questions can help you ask for an individual plan. Answers depend on your situation and the people responsible for your care.

Questions to take to my team

☐ Who can help if I cannot afford medicines, rehabilitation or follow-up?

☐ If a medicine is unavailable or unaffordable, whom should I contact before I run out?

For discussion and personal reference. Your care team's individual instructions take priority. For an emergency, contact your local emergency service; do not wait for a community reply.
