

SCARSTORIES · A LITTLE COMPANY ON THE WAY

An interpreter and information I can understand

Ask for communication support before a difficult conversation.

Access, communication and support

Questions for an individual conversation with your care team.

Ask for communication support before a difficult conversation. These questions can help you ask for an individual plan. Answers depend on your situation and the people responsible for your care.

Questions to take to my team

☐ Can a qualified medical interpreter join my visits and consent discussion?

☐ Can I have the plan in my preferred language and explain it back to check my understanding?

For discussion and personal reference. Your care team's individual instructions take priority. For an emergency, contact your local emergency service; do not wait for a community reply.
