# Heart treatment with diabetes or kidney disease

Ask how your existing conditions change the plan.

Other heart conditions and life stages

---

Questions for an individual conversation with your care team.

Ask how your existing conditions change the plan. These questions can help you ask for an individual plan. Answers depend on your situation and the people responsible for your care.

## Questions to take to my team

☐ How do my diabetes or kidney results change the procedure, medicines and monitoring?

---

☐ Who gives me written instructions for fasting, insulin and other medicines before a procedure?

---

---

For discussion and personal reference. Your care team's individual instructions take priority. For an emergency, contact your local emergency service; do not wait for a community reply.
